FOR IMMEDIATE RELEASE

**RTL NETWORKS, INC. HONORED AS FINALIST IN THE DENVER
METROPOLITAN CHAMBER OF COMMERCE, 2006 EMERGING BUSINESS OF
THE YEAR COMPETITION**

DENVER, CO – For the second time in less than a month, RTL Networks, Inc., was recognized by it's customers as “best in class.”

On the 27th of April 2006, RTL Networks, Inc. a minority owned firm focused on information technology infrastructure sales and services, was awarded the DoD (Pikes Peak Region) 2006

Small Business Contractor of the Year. This month, RTL Networks, Inc. was again honored; this time as a finalist in the Denver Metropolitan Chamber of Commerce (DMCC), 2006 Emerging Business of the Year competition. This honor was bestowed based on the financial performance and stability of RTL Networks, Inc., as well as the quality of its work and leadership. According to DMCC officials, this year's competition was one of the "most competitive [in the history of the competition]... our judges had a very difficult time in selecting." The awards ceremony was conducted in Downtown Denver, in one of the spacious conference rooms of the new Colorado Convention Center, as part of the Colorado Business Show.

Richard Lewis, the President and CEO of RTL Networks, Inc., stated "it is the employees and staff of RTL that really won this award. We have created a culture within the company of striving to exceed customer expectations with every opportunity, and our customers are noticing." Richard points out that this is third time this year that RTL Networks, Inc. has been honored by it's customers in a competition of this sort and from all three communities where RTL Networks, Inc. does business (i.e. the DoD sector, Federal sector and now the commercial sector). While Richard is very excited about all the attention he and his company have received; he is also very focused on the future. "We have a lot of work to do" says Richard. "We are constantly working to ensure that RTL Networks, Inc. is well postured to serve the needs of our current and future customers and for continued growth. We're thinking big."
